You don't often get email from sen.rob.kupec@mnsenate.gov. [Learn why this is important](#)

Good Day,

I am writing to you to express my support for a proposal submitted to you by the University of Minnesota Crookston titled "Bioprospecting Minnesota Wetlands for Phage and Bacterial Antimicrobials." This project aims to discover new antimicrobial agents that could lead to groundbreaking advancements in medicine and environmental conservation. This project will provide invaluable hands-on research experience to students from underrepresented backgrounds in rural areas, aligning with your commitment to enhancing educational opportunities throughout the state.

Thank you for considering this project that promises to enhance scientific understanding and public health and preserve the natural beauty and biodiversity of Minnesota's wetlands.

Sincerely, Senator Rob Kupec
